

How will this affect cycling? Richland's Queensgate Drive Improvement Project
March 2018
(from a Richland public mailing)

The Richland Capital Improvement Plan anticipates starting this spring on construction of the Queensgate Drive Improvement Project. A map (allowing magnification) showing the planned changes can be found on the city's website, <https://www.ci.richland.wa.us/home/showdocument?id=4670> with a simpler version reproduced below.

It's nice to see that the project will provide on-street bike lanes along Queensgate and connect into the shared use pathways along Queensgate and I-182. But it looks like more roundabouts are in our future. One will replace the existing signalized intersection at the eastbound ramp terminals on I-182 at Queensgate Drive. The roundabout will provide right turn slip lanes and an additional merge lane to the Eastbound on-ramp with I-182.

The following phone number is given for additional questions and comments: 509-942-7500.
